## WEB DEVELOPER

I am a skilled web developer proficient in **HTML, CSS, JavaScript, and ReactJS**, with hands-on experience in building responsive and interactive web applications. Currently, I am expanding my skills in **backend development with Node.js**, aiming to build **full-stack applications**. My focus is on writing clean, efficient code and delivering optimized, user-friendly interfaces.

## EDUCATION

**Sinhgad Institute of Technology and Science**                                                          Narhe , Pune

*Bachelor Of Engineering*                                                                                  *Aug. 2022 – May 2026*

## PROJECTS

**CRYPTO MARKETPLACE|** React.js, HTML, Tailwind CSS, JavaScript, API, Git (link)

- *Developed a **real-time cryptocurrency tracking app** using **React**.*
- *Integrated a **cryptocurrency API** to fetch and display live market data.*
- *Implemented **Google React Charts** to visualize price trends.*
- *Delivered a high-performance application with responsive design and seamless real-time updates, enhancing user engagement and satisfaction. Enabled detailed coin insights when users click on a specific cryptocurrency.*

**NOTES SAVER|** React.js, Javacript HTML, Tailwind CSS, Git (link)

- *A notes saver which include **creating, editing, deleting, copying, and adding descriptions** to notes.*
- *Utilized **LocalStorage** for persistent data storage in the browser.*
- *Ensured a **mobile-friendly and responsive design** for accessibility across devices*

**STUDENT MANAGEMENT DASHBOARD|** Firebase, ReactJS, Material UI, API, Git (link)

- *Implemented authentication using Firebase, allowing only **admin@123.com** to sign in.*
- *Built a **real-time Firestore  database** for adding and managing student records.*
- *Designed UI with **Material Kit UI**, ensuring a modern and responsive layout.*
- *Added a **secure logout** feature preventing access without reauthentication.*

**ASSET MANAGER** (College Project, Team-Based)**|** HTML CSS, JavaScript ,Node.js, MongoDB(link)

- *Developed a web-based asset management system for storing and managing item data.*
- *Used **MongoDB** for efficient data storage and retrieval.*
- *Built the frontend with **HTML, CSS, and JavaScript** for a responsive UI.*
- *Enabled users to **add, edit, and delete** asset records.*
- *Designed for easy access and organization of asset details.*

## SKILLS

**Languages:** C/C++,Python, JavaScript , HTML/CSS
**Frameworks:** React.js , Node.js
**Libraries:** Tailwind, React Router, Redux
**Developer Tools:** Firebase, Git, GitHub, Visual Studio

## ACHIEVEMENTS

- *Solved 500+ problems across coding platforms like CODECHEF and LEETCODE*
- Certificate for completing all the lessons and practice projects in Learn Python - Codechef
